

HUELLAS del TIÉTAR

VINOS DE PARCELA

VISIT AND TASTING –HUELLAS DEL TIÉTAR WINE EXPERIENCE

In Huellas del Tiétar we want you to know everything that is behind this exciting project for us.

We will guide you through the entire process of making our wines so that you know everything that happens from the "vine to the glass".

We will start by visiting the winery and then access our barrel room where our wines evolve and age.

We will explain the entire production process and you will be able to see all the machinery and tools involved in it, as well as the differences in production between a red, white and rosé wine.

You will know the "step by step" as you have never been told before.

We will talk about our vineyards and how we work them, the environment, the climate, the soils, the varieties of grapes we make...

To finish, you will be able to taste our wines that will transport you to their place of origin accompanied by an aperitif made with products from the Tiétar Valley: sausages, cheeses, etc.

In the tasting we will taste and analyze the wines so that you know everything that is behind them.

For this tasting you can choose between the **following options**:

OPTION 1. TASTING SESSION

- Tasting of 4 wines (3 young and 1 aged)
- Accompanying appetizer with local products
- Duration of the visit: 1,5 hours approx.
